PROFESSIONAL SUMMARY

A highly motivated Cybersecurity graduate from Tafila Technical University and experienced academic Teaching Assistant with a proven track record in threat analysis, digital forensics, and network security. Possesses hands-on enterprise-level training with the National Cybersecurity Center (NCSC) and demonstrated leadership as a co-founder of community-driven security platforms. Equipped with an industry-validated Trainer of Trainers (ToT) certification, combining rigorous technical proficiency in Python and networking with a passion for educational mentorship.

CORE COMPETENCIES

Security Operations:	Digital Forensics (Autopsy, FTK Imager), Wireshark, Nmap, Kali Linux, Metasploit
Networking & Systems:	TCP/IP, Network Security, Linux Administration (Ubuntu, Fedora, Manjaro), Windows Server
Programming & IoT:	Python Scripting, C++, Microelectronics Simulation (ESP32)
Leadership & Training:	Technical Instruction, Curriculum Development, Public Speaking, Team Building

PROFESSIONAL & TRAINING EXPERIENCE

Cybersecurity Trainee — National Cybersecurity Center (NCSC) [Enter Dates]

- Participated in intensive cybersecurity training modules focused on critical national infrastructure defense and incident response protocols.
- Acquired practical experience in real-time threat evaluation, vulnerability assessments, and mitigation strategies.
- Monitored network traffic utilizing enterprise tools to isolate anomalous active directory and endpoint footprints.

Undergraduate Teaching Assistant — Tafila Technical University 2024 – 2026

- Coordinated alongside engineering faculty to deliver technical labs, classroom instruction, and objective grading criteria.
- Facilitated hands-on laboratory experiments for core academic tracks including Operating Systems (Linux administration, process structures, shell automation), Artificial Intelligence, and Discrete Mathematics (cryptographic logic structures).
- Provided personalized technical mentorship to students navigating complex configuration scenarios.

Co-Founder — Jordan Cybersecurity Club (JCC) Platform

[Enter Dates]

- Co-established a collaborative network bridging academic curricula with real-world sector competencies.
- Organized focused digital literacy, community capture-the-flag events, and secure code-architecture learning paths.

EDUCATION

Bachelor of Science in Cybersecurity — *Tafila Technical University, Jordan*

Graduation: 2026

Key Coursework: Digital Forensics Labs, Cybersecurity Risk Management & Documentation, Network Security, Penetration Testing.

CERTIFICATIONS & ACADEMIC PROJECTS

- **Microsoft:** Cybersecurity Fundamentals Certification
- **Trainer of Trainers (ToT):** Professional Certificate
- **TryHackMe:** Advanced Practical Rooms & Defensive Security Paths
- Professional Python Scripting & Computer Networking Accreditations
- **Project:** Digital Forensics Insider Threat Investigation (FTK Imager & Autopsy timeline metrics)
- **Project:** Secure E-Commerce Infrastructure Risk Analysis & Documentation
